## ► About Us

### EBNER MEDIA GROUP

– Label and Package Printing Division

The EBNER MEDIA GROUP, Ulm, Germany, is a leading media company for specialist publications and portals as well as special interest publications. It supports with tailor-made content and interactive platforms professionals in their daily work and enthusiasts in pursuing their passions. The EBNER MEDIA GROUP with its more than 30 strong brands is organized decentrally at 4 locations in Germany.

In the target group-oriented business units of package printing and publication printing alone, there are four published periodicals for the printing industry. With **Etiketten-Labels** and **VerpackungsDruck** (formerly Flexo+Tief-Druck) as well the specials **Digital Printing today**, **Wellpappe, Faltschachteln & Papier (Corrugated Board, Folding Boxes & Paper)**, **Packaging Films & Converting** and **Gravure Global** we focus on all areas of package and label printing, extremely dynamic niches in the printing industry - in print, digital or face-to-face communication. Nobody knows, reaches or inspires the people in our target groups like us.

#### First-class specialist journalism - and much more ...

With our know-how and our passion for topics and details, we are indispensable for our readers. Our knowledge advantage creates added value. Your customers read and use the content of our specialist publications and portals intensively: **Etiketten-Labels**, **VerpackungsDruck** (formerly Flexo+Tief-Druck), **Digital Printing today**, **Wellpappe, Faltschachteln & Papier**, **Packaging Films & Converting** and **Gravure Global** – in print and digital, online and in social media:  
**2 portals, 2 specialist magazines, 4 specials and special newsletters**  
**– here you can reach your target group directly!**

## ▶ Etiketten-Labels – Profile

Title	<b>Etiketten-Labels</b>
Short description	Technical magazine for producers of labels, sleeves and in-mould labels in German speaking areas of Europe. Etiketten-Labels is the only technology-orientated magazine in German language for all segments of the production of self-adhesive labels and other narrow web products. A worldwide network of editors and recognized experts in their field are publishing well-founded technical articles about print and production of packaging. Besides technical articles there are topical news items on companies, associations, technologies, economics, markets, products, services and events – making Etiketten-Labels an indispensable source of information for the industry.

Publication frequency	6 issues print + digital per year
Publication size	210 mm width x 297 mm height (DIN A4)
Launched in	1993
Circulation	2,200 copies
Portal	etiketten-labels.com

- **Special Section:**  
■ Finishing & Veredelung

## ▶ Geographical Distribution

### Industry Segments

- Label printing companies using different printing processes like flexo, digital printing, offset, letterpress, screen and gravure
- Users of narrow web printing machines for the manufacturing of labels, tickets, tags, shrink sleeves, folding boxes and other packaging

## ▶ Print Analysis

### Content Analysis: 1 year = 6 issues in 2025

<b>Total volume</b>	440.00 pages	= 100.00%
<b>Advertisements</b>	90.86 pages	= 20.65%
<b>Classified ads</b>	30.00 pages	= 6.82%
<b>Editorial content</b>	319.14 pages	= 72.53%

## ▶ Industry Opinions

„A leading global supplier to the label industry, BOBST, has maintained a partnership with Etiketten-Labels as a trusted media partner and key trade publication for many years. With a commitment to technical journalism, it serves as an important platform for the label community, both as an independent news outlet and a source of specialist information.“

### **Désirée Bariatti**

*Regional Marketing & Communications Manager DACH  
BOBST*

“For us, Etiketten-Labels is a successful networking of information and communication technology. The online platform offers a quick, current overview - the print magazine scores with detailed topics and research. Both worlds strengthen each other through synergies to reach their target group.”

### **Sonja Arnold**

*Authorized Signatory and Head of Internal Sales  
Chromos GmbH*

“For Herma, Etiketten-Labels is the specialist magazine in the DACH region. In terms of content, the magazine convinces with high-quality specialist articles as well as with current trends and market events.”

### **Milos Kojic**

*Marketing / Product Management  
HERMA GmbH*

“At Kocher+Beck, Etiketten-Labels has been valued for decades as a reliable and comprehensive information tool. Even complex issues are explained regularly and in plain language. The continuous quality and comprehensive reporting is clear proof that a well-made specialist magazine still has a right to exist.”

### **Lars Beck**

*Executive Partner  
Kocher+Beck GmbH + Co. KG*

“Etiketten-Labels offers us an interesting information portal with a successful mix of informative reports and reports on the market and market trends. From my point of view, the medium „printed specialist magazine“ still has its appeal and its right to exist in the digital age for conveying information in a targeted manner.”

### **Thorsten Saathoff**

*Managing Director  
Nilpeter GmbH*

“For SCREEN Europe, Etiketten-Labels represents an essential bridge between technology, expertise, and people. Its focus on innovation and practical insights helps us share our developments in digital inkjet printing with professionals who drive the label and packaging industry forward.”

### **Juan Cano**

*Director Business Development Flexible Packaging  
SCREEN Europe*

**We appreciate your opinion!** Please contact editor **Carolyn Wacker** at [carolin.wacker@ebnermedia.de](mailto:carolin.wacker@ebnermedia.de) and let us know where we can improve, which topics you are interested in and what you would like to read. We look forward to your suggestions!

## ▶ Special Finishing & Veredelung

The megatrend individualization exists worldwide and leads to a differentiation of products, including their packaging and labels. The finishing of labels not only serves to improve the appearance, but also to ensure product safety. On the one hand, special optical effects and an extra gloss can be added during print finishing, which makes labels appear more valuable and interesting. On the other hand, with the finishing it is possible to protect the printing material from external influences such as scratches.

Twice a year, Etiketten-Labels deals in its own special, a magazine-within-a-magazine, with the different types of finishing, their function and which new developments are preoccupying the industry.

In our **Special Finishing & Veredelung** we treat, among other things:

- **Print finishing by varnishing**  
How do UV / LED-UV varnishes work and which special effects are possible with other technologies?
- **Haptic print finishing through foil embossing**  
Differences between and news about cold and hot stamping. Finishing with hologram foil. Production of embossing stamps and other possibilities for optimizing the haptic effect.
- **Laminating**  
Coating with different properties or specifications
- **Conventional die-cutting and laser die-cutting**  
What solutions are there on the market?  
What are the advantages and limitations?

- ▶ in Etiketten-Labels 3/2026 (June)
- ▶ in Etiketten-Labels 6/2026 (December)

## ▶ Special Newsletter Digital Printing *today*

Our digital channel for digital printing: In the **Special Newsletter Digital Printing today**, we focus on digital printing and the digital finishing of labels, packaging and decor products. The time is ripe for this, because digital printing is now one of the real and exciting successful technologies in these growth segments too.

Today we are faced with a huge range of digital system and plant solutions: from small to large, from slow to fast, from small format to large format, inkjet or toner technology, for paper, cardboard, film and other substrates, for labels, flexible packaging, etc. That's reason enough to get an overview of the status of digital printing with its own newsletter.

The **Special Newsletter Digital Printing today** is a co-production of the two editorial teams Etiketten-Labels and VerpackungsDruck (formerly Flexo+Tief-Druck). We send the **Special Newsletter Digital Printing today** to an own mailing list every month. Here you can present your company and your products with editorial news, an Online Advertorial or banner advertising.

Language: German – DACH markets  
Dispatch: monthly, 12 times per year

## ▶ B2B Decision-maker analysis

Study of the Deutsche Fachpresse on information behavior and media use of professional decision-makers

### Use of B2B information sources by age (Professional decision-makers)

\* Websites, Social Media, Newsletter, Apps

Angaben in %

■ Nutzung letzte 12 Monate  
■ dto./ Gruppe „bis 39 Jahre“

96 %

... of the 7.4 million professional decision-makers use specialized media

Printed and digital specialized media are the most important job-related sources of information for professional decision-makers. Top decision-makers use these even more intensively than the entire group. As before, specialized magazines and digital specialized media are in the intensity of use before the digital offers of the companies, who rank third.

78 %

... find advertising in specialized media useful

Specialized media are perfect advertising media, as advertising is perceived by readers as an important content. It is not only useful, advertising also creates a positive image of the advertising companies among the readers and users. Anyone who advertises in specialized media confirms its relevance in the market and reinforces it in a positive way.

97 %

... of all decision-makers under the age of 40 use specialized media

Specialized media usage is not a matter of age. Even professional decision-makers under the age of 40 use specialized magazines and digital specialized media offers intensively.

from 3 dispatches, each	€ 356.-
-------------------------	---------

Guten Tag Silja Aretz-Fezzuoglio,

Seitdem zuvor spielte Nachhaltigkeit auf einer Fachpack eine so große Rolle. Das ist kein Wunder. Denn die neue Verpackungsrichtlinie der EU steht vor der Tür. Aber Etiketten können eine Menge dazu beitragen, um solche Herausforderungen zu meistern. HERMA (Halle 7, Stand 527) liefert dafür die entscheidenden Halbmaterien. Zum Beispiel mit einem breiten Sortiment für Wash-off-Anwendungen. Mit den materialsparenden HERMA PP flex Folien. Und für das neue InNo-Liner System, das in Kooperation mit dem Druckspezialisten cab entstand.

Infos und Anregungen zu einigen Themen finden Sie vorab in diesem Newsletter.

Wir freuen uns auf Sie in Nürnberg!

Ihr HERMA Team  
Fon: 0711-7702-0 • E-Mail: [info.material@herma.de](mailto:info.material@herma.de)

#### Das Wichtigste in Kürze:

Mit cab: Neue System-Lösung für Logistiketiketten ohne Unterlagenermaterial. Neuer Weinkatalog macht vielfältige Veredelungstechniken für Etiketten erlebbar. HERMA PP flex bietet das Beste aus zwei Folien-Welten, auch für Wash-off.

#### Neues InNo-Liner System: Ohne Unterlagenermaterial, mit Papiersparautomatik

Auf der Fachpack präsentieren HERMA und cab gemeinsam eine bislang einzigartige Systemlösung für Logistik- und Versandetiketten ohne Unterlagenermaterial. Das System basiert auf preisgekröntem HERMA InNo-Liner-Verfahren und der

**Jetzt geht's los! - Interpack 2023 in Düsseldorf**  
Von der Kreislaufwirtschaft bis zur Digitalisierung. Auf der Fachpack treffen die Hot Topics der Branche auf moderne Technologien und Innovationen. Und die globale Processing- und Packaging-Industrie tritt sich endlich wieder in Düsseldorf. Nach sechs Jahren Pause sind zahlreiche Neuen für alle Anwenderbereiche zu sehen: Nahrungsmittel, Getränke, Süß- und Backwaren, Pharma, Kosmetik, Non-Food und Industriegebiet.

**Smarte Produktionslösungen zur Bahnaufreifung und Bahnbeobachtung**  
Erhardt+Leimer ist ein Spezialist für Automatisierungs- und Inspektionstechnik, die auf der diesjährigen Interpack in Düsseldorf nicht nur seine bewährten Systeme und Komponenten zur Prozessoptimierung und nachhaltigen Produktion präsentiert, sondern dem interessierten Fachbesucher auch seine neue [EL.NET](http://EL.NET) Technologie vorstellt.

**IT'S SHOWTIME!**  
Jetzt innovative, rotative Finishing-Technologie interaktiv erleben

**Patenterte Oberflächenvorverlegung für Druckanwendungen**  
Die Westland-Gruppe präsentiert seine vielfältigen Produktionslösungen und Dienstleistungen auf dem Gemeinschaftsstand der PrintCity. ## General Terms and Conditions

### 1. Exclusive scope, agreement

1.1 In its own name and for its own account, the Ebner Media Group GmbH & Co. KG, Karlstrasse 3, 89073 Ulm, Germany (hereinafter referred to as "publisher") markets advertisements for the newspapers and magazines that it publishes.

1.2 The following terms and conditions are exclusively valid for all contractual relationships between the publisher and the customer (hereinafter referred to as "customer") with regard to the placement of advertisements. The validity of any general terms and conditions of the customer is expressly excluded, even if the publisher does not contradict in individual cases.

1.3 The publisher agrees to comply with the regulations of the minimum wage (MiLoG). This is also valid, insofar as the publisher orders other contractors with attendances.

### 2. Services; Submission for publication; Completion

2.1 In the context of these terms and conditions, an "advertising order" is a contract by an advertiser or other purchaser of advertising space for the publication of one or more advertisements in a publication for the purpose of dissemination.

2.2 In case of doubt, advertisements are to be submitted for publication within one year after the signing of the contract. If a contract grants the right to submit individual advertisements, then the contract is to be completed within one year after the publication of the first advertisement, assuming that the first advertisement was submitted and published during this year.

2.3 Upon signing an advertising contract, the customer also has the right to submit, within the agreed or one-year period according to paragraph 2.2, additional advertisements beyond the volume specified in the contract.

2.4 If an order is not completed due to reasons for which the publisher is not responsible, then, notwithstanding any other legal obligations, the customer shall pay the publisher the difference between the contractually granted discount (taking into consideration the pre-defined total volume) and the actual total volume (discount adjustment charge). The payment shall not apply if the failure is due to force majeure within the risk area of the publisher.

### 3. Calculation of volumes

3.1 For the calculation of volumes, text millimeter lines are converted according to price into advertisement millimeters.

3.2 The publisher must receive orders for advertisements and third-party supplements which are intended for publication in specific numbers, in specific issues or in specific places within the publication before the closing date so the publisher can notify the customer, prior to the advertising deadline, that the order cannot be completed in this way. Classified ads will be printed in the relevant section without the need for express agreement.

3.3 Text advertisements are advertisements bordered on at least three sides by text and not by other advertisements. Advertisements that are not identifiable as advertisements due to their layout can be clearly labeled as such by the publisher with the word "advertisement".

### 4. Publisher's right of refusal; Orders for supplements

4.1 The publisher reserves the right to refuse advertising orders, individually submitted advertisements in the context of a signed contract or orders for the insertion of supplements due to the contents, the origin or the technical form according to uniform, objectively justified principles of the publisher if their content violates laws or legal regulations. This also applies to orders placed with branches, reception points or representatives.

4.2 Orders for supplements are binding on the publisher after submission of a sample of the supplement and its approval. Supplements which, due to their format or layout, give the reader the impression that they are part of the newspaper or magazine, or which contain third-party advertisements, will be accepted subject to change. The customer will be notified immediately if the publisher decides to refuse an order.

### 5. Obligations of the customer

5.1 The customer is responsible for assuring the timely delivery of the advertising copy and the flawlessness of the printing documents or supplements. If advertising orders, changes in the scheduling or the desired issue, textual corrections and/or cancellations are communicated via telephone, the publisher assumes no liability for same. If printing documents are obviously unsuitable or damaged, the publisher shall immediately request replacements for same. Within the limitations imposed by the printing documents, the publisher guarantees the standard of printing quality customary for the publication.

5.2 Cancellations must be made in writing. If an order is cancelled, the publisher can bill the customer for the costs incurred due to typesetting.

5.3 The customer is obliged to bear the costs of publication of a reply which refers to actual assertions in the published advertisement. These costs will be calculated according to the currently applicable advertising rate. This applies only in the event that the publisher is obliged to print the reply.

5.4 Exclusion of competition cannot be guaranteed. Placement requests are subject to availability of space. The publisher reserves the right to change previous placements due to reasons related to the page layout; such changes shall not affect the validity of the order. The publisher likewise reserves the right to change branch-of-industry designations.

5.5 If the printed advertisement is wholly or partly illegible, incorrect or incomplete, the customer has a claim to price reduction or to a perfectly corrected replacement advertisement, but only to the extent to which the purpose of the original advertisement was impaired. If the publisher fails to publish the replacement advertisement within an agreed and reasonable time period or if the replacement advertisement is again flawed, then the customer has a right to a price reduction or to cancellation of the order.

### 6. Liability of the publisher

The publisher assumes unlimited liability for damages caused by his legal representatives or executive employees and for damages caused deliberately by other agents acting on his behalf;

in the event of a negligent breach of duty, the publisher is also liable for damages arising from injury to life, body or health. The publisher is liable for product liability damages in accordance with the provisions of the Product Liability Act. The publisher is liable for damages caused by his legal representatives or executive employees arising from the breach of cardinal obligations; cardinal obligations are the essential duties which form the basis of this contract, which were crucial for the completion this contract, and upon the fulfillment of which the licensee can rely. If the publisher has breached these cardinal obligations due to slight negligence, then his liability is limited to the amount that was predictable for the publisher at the time when each service was rendered. The publisher is liable for the loss of data only up to the amount that would have been incurred for recovery of the data if proper and regular back up of the data had been undertaken. Further liability of the licensor is excluded.

## 7. Proofs; Calculation

7.1 Proofs will be provided only by request. The customer bears the responsibility for the correctness of the returned proofs. The publisher has the right to expect the corrections to be communicated to him within the period specified when the proofs were sent to the customer.

7.2 If no special instructions about the size and dimensions are given, the calculation will be based on the customary and actual printed height of the advertisement.

## 8. Invoicing; Delay; Voucher Copy of the Advertisement

8.1 If the customer has not paid in advance, then the invoice will be sent immediately or no later than fourteen days after the publication of the advertisement.

8.2 Unless a different payment period or prepayment has been agreed in individual instances, the invoice must be paid within the period specified in the price list. This period begins with the customer's receipt of the invoice. Any discounts for early payment will be granted as specified in the price list.

8.3 Interest and collection fees will be charged if the payment is delayed or deferred. In the event of a delayed payment, the publisher can delay completion of the current order until the payment is received and can demand prepayment for the remaining advertisements.

If there is reasonable doubt about the solvency of the customer, the publisher has the right, also during the running time of an advertising contract and without consideration of an originally agreed payment date, to make the publication of further advertisements contingent upon the advance payment of the amount and the settlement of outstanding invoices.

8.4 If so desired by the customer, the publisher will deliver a voucher copy of the published advertisement together with the invoice. Depending on the nature and size of the order, the delivered voucher copy will consist of tear sheets, full pages or complete copies of the issue that carried the advertisement. If a voucher copy can no longer be obtained, its place shall be taken by a legally binding certification from the publisher averring that the advertisement was indeed published and disseminated.

## 9. Cost; Price reduction

9.1 The customer shall bear the expenses of preparing ordered printing blocks, stencils and drawings, as well as the expenses of significant changes to the originally agreed versions desired by the customer or for which the customer is responsible.

9.2 In case of a contract covering several advertisements, a decrease in circulation can serve as the basis for a claim to price reduction if the average circulation specified in the price list or otherwise mentioned is not achieved in the overall average of the year beginning with the scheduled publication of the first advertisement or, in the event that no circulation volume is mentioned, if the average sold circulation (for special-interest magazines: the average actually distributed circulation) is less than the average sold circulation during the previous calendar year. A decrease in circulation is a shortcoming which justifies a price reduction only to following extents:

- 20% price reduction for circulation up to and including 50,000 copies
- 15% price reduction for circulation up to and including 100,000 copies
- 10% price reduction for circulation up to 500,000 copies
- 5% price reduction for circulation of 500,000 or more copies.

Additionally, claims for price reduction are excluded if the publisher has informed the customer of the reduced circulation so far in advance that the customer could cancel the order prior to the publication of the advertisements.

## 10. Classified Advertisements with Box Numbers; Documents; Storage

10.1 For classified advertisements with box numbers, the publisher will exercise the due diligence incumbent upon a prudent businessman to assure the safekeeping and timely forwarding of offers. Registered and express letters in response to classified advertisements with box numbers will be forwarded by normal post.

10.2 The publisher will return valuable documents without being obliged to do so. Letters which exceed the permissible DIN C 4 format (weight: 500 grams), parcels containing merchandise, books or catalogues, and small packages will not be forwarded and their delivery will be refused. However, in exceptional instances, acceptance of delivery and forwarding can be agreed if the customer pays the costs and/or fees incurred for same.

10.3 In the interest of the customer and for his protection, the publisher reserves the right to open and to inspect incoming letters or parcels in order to preempt or eliminate any misuse of box-number services. The publisher is not obliged to forward business proposals or brokerage offers. Printing documents will be returned only at the specific request of the customer. The obligation to keep such documents ends three months after the expiration of the order.

## 11. Place of Performance and Place of Jurisdiction; Applicable Law

11.1 In business transactions with merchants, legal entities or special funds under public law, the place of performance and the place of jurisdiction is the head office of the publisher. However, the publisher also has the right to sue at the court of law which is responsible for the region in which the customer's head office is located.

11.2 German law applies with the exclusion of the UN Sales Convention.
